With 17 years of professional experience in web development, I design and enhance business applications, SaaS products and APIs.

A senior full-stack or backend developer role, or a freelance assignment involving development, taking over an existing application or supporting a development team.

PROFESSIONAL EXPERIENCE

Ypsium - Carcassonne — 2025 - 2026
Full-stack developer

Development of SaaS tools for road transport using Symfony and Vue.js. Web infrastructure management and operational maintenance of existing applications.

Kalisio - Castelnaudary (fully remote) — 2024 - 2025
Full-stack developer

Development of a web mapping application based on an internal framework. Work with FeathersJS, Vue.js / Quasar and MongoDB in a fully remote setting.

Internet Factory - Guyancourt (fully remote) — 2023 - 2024
Full-stack developer

Design and development of SEO business applications using PHP/Symfony and Vue.js. Operational maintenance of web applications. Prototyping of internal projects in Python.

Aldeis Yooda - Vendargues — 2014 - 2023
Full-stack developer

Web application development covering microservices, frontend and infrastructure, using PHP/Symfony and Vue.js. Web data collection and data mining. Management of MariaDB, PostgreSQL and Cassandra databases.

Adapt Informatique - Juvignac — 2009 - 2014
Backend developer

Development of desktop and mobile applications with WinDev. Creation and maintenance of back-office tools in PHP and JavaScript.
